### RAILROAD STOCKS WERE EXCITED AND HIGHER.

BUYING OF HEAVY BLOCKS THE CAUSE.

Marked Absence of the Eager Demand Which Characterized Final Days Last Week.

New York, April 22.-Wall street-The mar-New York, April 22.—Wall street—The market opened excited and higher for railroad stocks on buying of very heavy blocks, running from 1,000 to 15,000 shares, the later for Union Pacific and at wide openings. There were gains of 1 to 1½ in Union Pacific, St. Paul, Missouri Pacific, Metropolitan Street Railway, New York Central, North-

oi the sale of 4,000 shares, compared with 1.5 on Saturday.

There was a marked absence of the eager demand for stocks, which characterized the final days last week.

Instead paper profits were converted into cash as speedily as possible, and the volume of these sales encouraged bear operators to go short of the active stocks. Rock Island and Erie second preferred fell 2 points and a dozen or more leading stocks over a point.

Amaigamated Copper met a demand for both accounts at 119 and climbed rapidly to 1244. Exceptions to the tendency included only a few minor stocks which have been recently prominent. At 11 o'clock there was

a large demand for the grangers, resulting in Rock Island regaining its loss and Burlington selling 14 above Saturday's close. Other stocks did not sympathize, and were feverish and reactionary.

The gains in the stocks, which were strong at the opening, were wiped out, and other stocks were materially below Saturday's level before strong support in the grangers and coalers checked the selling.

Mrs. Braun was 84 years of age, and came to America when a child. John Braun, her husband, was also born in Germany. He was educated in music in Berlin and selected the flute as his favorite instrument. After coming to America he traveled with an orchestra as its leador, raking a tour of the country. He has been dead thirty-two years, Mrs. Braun's funeral will take place Tuesday afternoon from the home of her son to Bellefontaine Cemetery. All Bank and Trust Stocks Booming and Railways in Demand and Very Strong.

change opened up Monday in a most bullish way, with a good all-round demand, heavy dealings and stronger and higher prices in nearly all cases, few of the stocks quoted showing any change for the worse. The sales, which were chiefly in stocks, were large and consisted of \$8,000 bonds of different kinds, and a total of over 1,400 shares of stock, mostly bank and trust stocks. A good, strong and active market was had for United Rallways, but the aggregate business for the day was rather light for the reason that sellers were not numerous, and interest was largely centered in other securities. Of the 4s sales were \$5,000, but they brought the top, that is to say \$91. Transit or common stocks were quiet, but steady, and the 50 shares that changed hands brought \$23.25, which was subsequently bid for more and \$24.50 asked, being the same as it closed Saturday. Preferred the same as it closed Saturday. Preferred stock met with the best demand, and the few hundred shares that sold were right up at the top at \$59.75 and \$50, the market closing with the former bid and the latter asked, and very strong with a large number of orders unfilled.

that a good, big dividend was in sight.

Bank stocks were nearly all in demand, and in several instances higher prices went on record. This was true of National Bank of Commerce, which appears to have gotten its second wind, and has made another start for a higher level. The demand was quite urgent and the market advanced and closed a point up for the day at \$231 bid, but none offered for less than \$225. State in National and Boatmens attracted attention, and appear to be coming to the front rapidly. The demand for both these stocks was very good, the former selling to the amount of 6 shares at \$165, which was bid at the close, and the latter selling at \$197.59, which was 1 point higher than Saturday, and at which 50 shares changed hands. Mechanics was in demand and higher at \$227.50 bid, and Fourth National was saleable at \$240.

LARGE AND ACTIVE TRADING

The new week on the local Stock Ex-

The one weak stock on the market Monday was Granite-Bi-Metallic mining. There were a number of seiling orders in this stock, and, as there was but one buyer, the market naturally weakened, sales being made on a sliding scale in 100-share lots to the amount of 800 shares at \$2.37½ down to \$2.30, and closing at \$2.27½ bid and none offered. American Nettle was quoted at \$1 sellers and %c bid.

Brewers were easy and quiet, one selling early in the session at \$100.25. There was also a sale made on the quiet in two \$50 Missouri-Edison ?s at \$55.75.

GOVERNMENT SEED DISTRIBUTION.

The Agricultural Department, in a recent publication, says:

"The distribution of seed to correspondents of the Division of Statistics is being pushed as rapidly as circumstances will permit. The quantity of seed to be handled is so great and the time in which this must be done a limited, that both the distributing agency and the mail service have been somewhat overtaxed, and some delay is unavoidable. Exery effort, however, is being made to complete the work at an early date. The seed at the disposal of the department is put up in packages with reference to its adaptation to different localities, and it is impossible to vary the arrangement to meet individual requests. Under existing conditions, no requests from individual correspondents can either hasten the delivery of seed or make it more certain." GOVERNMENT SEED DISTRIBUTION.
